

Neotex® PU 0413

Special thinner for polyurethane or polyaspartic systems

Description

Special thinner suitable for the polyurethane coatings **Neodur® Special** and **Neodur® Special Mat**. Suitable also for the dilution – if needed – of **Neodur® Fast Track PR** and **Neodur® Fast Track**, as well as **Neoproof® Polyurea** systems.

Also suitable for the cleaning of the surfaces or tools after the application of the above products.

Packing

1L

Technical Characteristics

Density (EN ISO 2811-1)	0,88kg/L (±0,05)
Appearance	Transparent
Packing	1L in metal cans
UFI code	AUA0-107E-G00H-6367
Storage stability	2 years, stored in its original sealed packing, protected from frost, humidity and exposure to sunlight

The information supplied in this datasheet, concerning the uses and the applications of the product, is based on the experience and knowledge of NEOTEX® SA. It is offered as a service to designers and contractors to help them find potential solutions. However, as a supplier, NEOTEX® SA does not control the actual use of the product and therefore cannot be held responsible for the results of its use. As a result of continual technical evolution, it is up to our clients to check with our technical department that this present data sheet has not been modified by a more recent edition
